

Honeystreet

## **Village Design Statement – update**

In line with guidance from Wiltshire Council the Parish Council has agreed that the Honeystreet Village Design Statement (VDS), published in 2006, should be updated.

It is not expected that there will be any substantial change in the objectives and recommendations of the original VDS and its aim to protect and enhance the village.

The 2006 document was based in large part on a survey of Honeystreet residents which produced a very high response rate. The advice is that it is not necessary to repeat that exercise. But any contributions or suggestions from residents are very welcome.

The original VDS is available on the parish website [altonsandhoneystreet.org.uk](http://altonsandhoneystreet.org.uk) Anyone wishing to contribute to the update please email [clerk@altonsandhoneystreet.org.uk](mailto:clerk@altonsandhoneystreet.org.uk)
