

Dear Neighbours,

Do you hate cooking or are unable to cook? Are you feeling the pressure of juggling home schooling and working from home and find you have no time to cook for your family? Would you love to have a freezer full of healthy home cooked meals? Would you like an older friend or relative to have a home cooked hot meal more often?

I am not a chef, but I think of myself as a competent home cook, and it is something I love to do. Having been made redundant from my job in the travel industry last June, I find myself with time on my hands, and I would love to help those in our community by selling healthy home cooked meals to those who need them. I cook from scratch for my husband and myself every night, and it is one of my favourite things to do – I find it very therapeutic! I am not looking to turn this into a business or particularly to make money, just to help out anyone that I can.

I source a lot of my ingredients locally, with most of the meat I use coming from Lowerfields Butchers near Devizes, which is excellent quality.

Please see a selection of meals I can offer on the attached menu. This is just a selection, if there is anything else you might like; I am very willing to turn my hand to trying out new dishes and recipes.

When it comes to quantities the minimum order for most dishes is four portions of a dish. You can choose to have these individually (they can be frozen) or as one large dish. Feel free to buddy up with neighbours or post in the WhatsApp group to find others to order with!

For payment I can take cash, cheque or online bank transfer.

*****SPECIAL OFFER FOR WEEK ONE ONLY - £1 OFF EVERY DISH FOR W/C 25th JANUARY 2021****

I am based in Honeystreet and more than happy to deliver within a five-mile radius. I would need at least 48 hours notice please (more if you can!), to allow for me to do the necessary shopping and cooking.

Please contact me on louisemathers12@gmail.com or 07824 663532 to order.

Thank you and I look forward to cooking for you,

Louise Mathers
